

Fern Hill Gardening Club

We are very lucky at Fern Hill to have our own vegetable gardens. At the Fern Hill Gardening Club, children are taught the basics of gardening. They learn how to grow and look after plants and how to use gardening tools safely. They also learn the names of common plants, including weeds! Together, the children organise regular after school market sales where the school community can buy the fresh and organic produce they have helped to grow. The 'gardening year' ends with a club garden party to celebrate their hard work - and sample all the different fruits and vegetables they have tended to!

If you would like to be a Fern Hill Gardener, and don't mind getting a little bit dirty, this is the club for you!

For children in Years 2 - 6, every Tuesday after school from 3:30 - 4:30 pm.
